Our Products

Greenomers manufactures backyard compostable biopolymers, meaning articles made from this material that will completely biodegrade in natural soil environment in 180 days, leaving behind only carbon dioxide, water and compost.

Blow Film Granules

Extrusion Granules

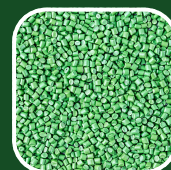

Injection Molding Granules

IM BM Granules

EXT BM Granules

TF Granules

We Manufacture End Products Also

Our innovative products provide sustainable, plastic-free solutions for industries such as packaging, agriculture, and consumer goods, promoting a cleaner, greener planet. All these materials are biodegradable, eco-friendly, and compostable .
